

# Whale Watching with Salt Cay Divers

## What to Expect

3-hour whale watch in any direction around Salt Cay. Every tour is unique, as the humpback whales exhibit a wide variety of behaviours during their annual breeding migration, including singing, resting, nursing, breaching, and travelling.

There is a possibility of getting in the water to snorkel with whales, which depends on whale behaviours and weather conditions. Although it can be a very exciting occasion, all whale encounters will adhere to the current regulations protecting this endangered species.
